

Certificate of Completion

Presented By
Society of American Military Engineers
Tulsa Post

This certifies that

was in attendance at the Tulsa SAME monthly post meeting on April 15, 2014 at the Tulsa District Corps of Engineers Office in Tulsa, OK. This program covered technical issues relevant to the engineering profession as outlined below. Speakers may double the PDHs for their topic.

Speaker: Robert Day of Cyntergy AEC

Topic: The Oklahoma Medical Reserve Corps is designed to bring together practicing and retired healthcare professionals from a diversity of fields, including physicians, nurses, hospital and public health workers, mental health experts, and other medical professions. These professionals, working together with the non-medical volunteers, comprise the corps, which supplements existing "first responder" emergency systems.

The Tulsa Post's presentation will focus on how the program prepares volunteers and professionals to provide assistance to the first responders, medical personnel, Corps personnel, FEMA, Homeland Security, or others that are coordinating the government's response to the situation. The presentation will provide highlights of the required training, how it fits with the SAME Readiness/Fast Start Program, how it works with the Corps of Engineers, and also how it can help each person get their own family ready to act safely and responsibly, whether or not you decide to be a volunteer.

Total PDH Credits: 0.75 PDH's

for 
COL Richard Pratt
2014 President
SAME Tulsa Post
