

PROFESSIONAL DEVELOPMENT HOURS (PDHs) CERTIFICATE

Presented by
Society of American Military Engineers
Tulsa Post

This certifies that

attended the below described presentation at Meet the Corps Day, sponsored by the SAME Tulsa Post on **March 3, 2020** at the River Spirit Casino Conference Center in Tulsa, Oklahoma. This program covered technical issues relevant to the engineering profession as outlined below. Speakers may double the PDHs for their topic.

Speakers:

Rick Reese, Tulsa Resident Office, Resident Engineer

Chris Strunk, Ch Mil Design Section, Engineering

Laura Shoopman, Ch Design Management Section, Engineering

Topic: Quality Assurance & Control Processes / Design Quality Control

The presentations covered design and construction quality expectations and common issues. The speakers addressed design processes and design submittal expectations and common issues. They examined quality during construction and QA/QC procedures.

Total PDHs awarded: 1 hour

Important: Each member is responsible for applying for his or her own PDH credits with their respective licensing/certification board. The Society of American Military Engineers cannot guarantee that all boards will accept all PDH credit; please check with your licensing board for more information.
