

PROFESSIONAL DEVELOPMENT HOURS (PDHs) CERTIFICATE

Presented by
Society of American Military Engineers
Tulsa Post

This certifies that

attended the below described presentation for the November Monthly Luncheon, sponsored by the SAME Tulsa Post on **November 17, 2020**. This program was conducted and attended in a virtual environment. This program covered technical issues relevant to the engineering profession as outlined below. Speakers may double the PDHs for their topic.

Topic: Update on Tulsa's Zink Dam

Speakers: Brooke Caviness, PE, City of Tulsa and Lars Ostervold, PE, Jacobs

This presentation updated the attendees on the status of the Zink Dam reconstruction project on the Arkansas River in the City of Tulsa. Updates included final design development, final construction readiness, and schedule for construction. The Zink Dam reconstruction project on the Arkansas River began construction in October 2020.

Total PDHs awarded: 1.0 hours

Important: Each member is responsible for applying for his or her own PDH credits with their respective licensing/certification board. The Society of American Military Engineers cannot guarantee that all boards will accept all PDH credit; please check with your licensing board for more information.

Wade Anderson, P.E.
