

CERTIFICATE OF COMPLETION

Presented by
Society of American Military Engineers
Tulsa Post

This certifies that

attended the Tulsa SAME Monthly post meeting on September 19, 2017 at the Tulsa District Corps of Engineers Office in Tulsa, Oklahoma. This program covered technical issues relevant to the engineering profession as outlined below and is good for 1 PDH. Speakers may double the PDHs for their topic.

Speaker: Tim Peasley, PE, CEM, Senior Mechanical Engineer, US Army Corps of Engineers, Tulsa District

Topic: **Energy Management on MILCON Projects**

The presentation covered the basics of energy management, energy use reduction for new and existing facilities and why we want to go to the efforts for energy management and use reduction. We discussed current & relative energy costs nationwide, in Oklahoma and at Tulsa District's Army and Air Force installations and how energy costs effect energy savings projects. We touched on DOD mandating laws, Executive Orders, Criteria and Codes that guide and dictate how we proceed to reduce energy usage and how usage is analyzed and compared to mandatory baselines. Lastly, we discussed what each base, post and USACE is doing to manage energy.

Michelle R. Lay, P.E.
2017 President
